

## Civil Engineers - Design

Due to new opportunities as we grow our business and our team, we are excited to start 2021 looking for qualified Civil Engineers. We are accepting resumes for both entry level engineers in our Madison office and experienced full-time Design Engineers in all our offices. The qualified candidate will work with engineers on challenging transportation projects and should possess a Bachelor of Science degree in Civil Engineering with the experience and professional certification or licensure noted below.

- **Staff Engineer:** 0-3 years of experience, with FE/EIT certification or ability to do so within one year
- **Project Engineer:** 3-10 years of experience, with PE license or ability to do so within one year
- **Senior Project Engineer/Manager:** 10+ years of experience, with PE license required

KL Engineering, Inc., is an award-winning Wisconsin based consulting engineering firm, located in Madison, Wisconsin with offices in Menomonie, Green Bay and Germantown. We provide our clients with a full range of services that include transportation engineering, planning and design; structural engineering, traffic engineering, site design, parks/trails/recreation design, municipal and utility design, environmental studies; surveying/GIS; construction management; and more. We are committed to offering **[A] Better Experience** to both our coworkers and clients through innovation and collaboration to create transportation engineering infrastructure solutions that benefit the public. With unwavering customer service, before we build roads, we build relationships.

The successful candidate will possess the desire to be part of a team of professionals who are invested and excited about the opportunity to work on a variety of projects and initiatives that move people.

### RESPONSIBILITIES

- Using engineering and design software and equipment including AutoCAD and Civil 3D:
  - Prepare engineering and design documents that include project plans and specifications for roadway, drainage, and geometric design.
  - Prepare engineering computations and quantity estimates.
- Prepare or modify reports, presentations, construction schedules, environmental studies, applications and permits.
- Assist in monitoring project schedules and activities.
- Perform municipal engineering and construction management tasks.
- Research and problem solve design or construction related concerns found in the field.
- Work with clients and professional counterparts to ensure projects are delivered on-time, within budget, meeting, and/or exceeding client expectations.

## QUALIFICATIONS

- Successful candidates will have a bachelor's degree in civil engineering or a related field.
- Experience with transportation design/drafting software such as AutoCAD, Civil 3D or MicroStation.
- Proficiency with the MS Office suite of software.
- Good interpersonal and communication skills and ability to work in a collaborative team environment.
- Ability to effectively communicate with clients and colleagues, both verbally and in writing or virtually.
- Strong organizational, analytical and time management skills with high level of attention to detail and self-motivated to be successful.
- Ability to learn and keep informed of the latest design standards and procedures.
- Ability to identify and establish work priorities while balancing multiple projects.
- Previous experience on transportation projects (WisDOT experience a plus).
- A Senior Project Engineer/Project Manager candidate would possess the ability to lead teams, manage projects and mentor others.

In addition to career growth potential, we offer an excellent salary and full benefits with a casual working environment.

Current benefits include:

- Paid Holidays & PTO
- Flexible hours
- Medical Insurance
- Dental and Vision Insurance
- Life Insurance
- Long and Short-Term Disability Insurance
- 401K/Profit Sharing Plan
- Section 125 Cafeteria Plan
