

Civil Engineer or Landscape Architect – Parks, Trails & Recreation

We are blazing new trails! To meet the demands of our growing Parks, Trails, and Recreation (PTR) department, KL Engineering is accepting resumes for a full-time civil engineer or landscape architect in our Germantown office.

The qualified candidate will work out of our Germantown office with civil engineers and landscape architects on challenging PTR projects. This person will be part of the team that designs and oversees the construction of parks, trails, and other recreational facilities. Responsibility emphasis will be determined based on the business needs and candidate's expertise. The qualified candidate will be working in both the design and construction field as needed on these PTR projects.

Qualified candidates should possess a Bachelor of Science degree in Civil Engineering or Landscape Architecture. It is important to have professional licensure (PE or PLA) or interest and ability to earn such licensure. The successful candidate will possess the desire to work within the parks, trails, and recreation sector and is invested in offering **[A] Better Experience** to both coworkers and clients by collaborating within a team to create infrastructure solutions that benefit the public.

KL Engineering is an award-winning Wisconsin based consulting engineering firm, located in Madison, Wisconsin with offices in Menomonie, Green Bay, and Germantown. We provide our clients with a full range of services that include transportation engineering, planning and design; structural engineering, traffic engineering, electrical design, site design, parks/trails/recreation design, municipal and utility design, environmental studies; surveying/GIS; construction management; and more. We are committed to offering **[A] Better Experience** to both our coworkers and clients through innovation and collaboration to create transportation and recreation engineering infrastructure solutions that benefit the public. With unwavering customer service, before we build roads and trails, we build relationships.

The successful candidate will seek to be part of a team of professionals who are invested and excited about the opportunity to work on a variety of infrastructure projects and initiatives that improve mobility, accessibility, and safety. At KL Engineering, we work on diverse and challenging transportation related projects within a team of talented and experienced engineers in an inclusive, collaborative, and flexible work environment. Our focus is to provide employees meaningful work and involvement enabling them to learn, grow, and thrive personally and professionally. Our shared values of integrity, dependability, excellence, work-life balance, diversity, and commitment to our clients and each other is the foundation of our continued success.

RESPONSIBILITIES

Design

Minimum:

- Coordinate/perform Civil 3D work for design modeling and plan production.
- Prepare project plans, specifications, and miscellaneous quantities.
- Prepare project reports.

Expanded, based on experience:

- Assess environmental impacts and assists with the preparation of environmental reports, agency coordination, and permitting.
- Assist as a client liaison for the project.
- Assist with the coordination of sub-consultant activities.
- Assist in preparing grant and funding applications.

Construction

- Assist in the oversight of the construction of PTR projects, assuring projects are constructed in accordance with the plans and specifications, which includes but is not limited to the following:

Minimum:

- Conduct construction observation activities.
- Perform inspection and materials testing.
- Compute and record construction quantities.

Expanded, based on experience:

- Review and approve contract submittals.
- Monitor contractor schedules and activities.
- Research and problem solve construction related concerns found in the field.
- Process contract modifications, RFIs, and pay applications.
- Assist in the coordination of project meetings and correspondence with the client, the contractor, businesses, and public.

QUALIFICATIONS

Required:

- Successful candidates will have a bachelor's degree in civil engineering, landscape architecture, or a related field.
- Familiarity with design/drafting software such as AutoCAD and Civil 3D
- Proficiency with the MS Office suite software.
- Good interpersonal and communication skills and the ability to work in a collaborative team environment.
- Ability to effectively communicate (virtually and in-person) with client and colleagues, both verbally and in writing.
- Strong organizational, analytical, and time management skills, with high level of attention to detail and self-motivated to be successful.
- This position requires you to have authorization to work in the United States for any employer. We will not provide sponsorship for this position.

Beneficial Competencies:

- Experience with construction oversight activities.
- Previous experience on PTR projects, locally-let municipal design procedures, WisDOT bike/ped standards, and WisDOT FDM policies and procedure knowledge.
- Licensed as a Professional Engineer (PE) or Professional Landscape Architect (PLA) in Wisconsin (licensure in surrounding areas a plus).
- Supplemental design experience in related fields such as roadway, stormwater, or structure design is beneficial.

In addition to career growth potential, we offer an excellent salary and full benefits with a casual working environment.

Current benefits include:

- Paid Time Off
- Paid Holidays
- Medical Insurance
- Dental and Vision Insurance
- Tuition Reimbursement
- Flexible Core Hours Schedule
- Corporate Casual Dress
- Life Insurance
- Long and Short-Term Disability Insurance
- 401(k) Retirement Savings & Profit-Sharing Plan
- Section 125 Flexible Spending Plans
