

Civil Engineer Technician I – Construction / Transportation

KL Engineering, Inc., a Wisconsin based consulting engineering firm, is accepting resumes for a full-time Civil Engineer Technician I in our Green Bay office. KL Engineering is an award-winning civil engineering firm located in Madison, Wisconsin with offices in Menomonie and Green Bay. We provide our clients with a full range of services: transportation engineering, planning and design, environmental studies, surveying/GIS, construction management, and more.

We are looking for an individual with education or experience in the construction and design of transportation infrastructure. Duties would include construction site observation, evaluation and documentation, conducting materials testing, construction project administration and assisting with field survey operations. The ability to prepare drawings, plans, and specifications using CAD techniques is desired. The successful candidate would have civil engineering technician or highway transportation technician education or experience. *May 2019 graduates are encouraged to apply. Anticipated start date is May 2019, with some flexibility on start date for December graduates or experienced technicians interested in a great opportunity with an exceptional company.*

RESPONSIBILITIES

- Reads and interprets construction plans and specifications.
- Conducts on-site construction observation activities, serving as on-site project representative.
- Ensures project is constructed in accordance with the plans and specifications.
- Attends meetings as related to construction projects.
- Maintains construction documents for legal recordkeeping.
- Tests and records materials and products used on projects, measures and records quantities.
- Assists with field survey activities.
- Produces drawings and exhibits using CAD techniques.

QUALIFICATIONS

- Successful candidate will have an associate degree in Civil Engineering Technology, related Highway Technician education and/or certification, or equivalent transportation construction experience.
- General knowledge of basic construction principles, procedures, equipment, and materials utilized in transportation infrastructure and site development projects.
- Experience with or aptitude to learn survey terminology, process and equipment.
- Basic math skills along with knowledge of MS Office Suite, CAD, and Blue Beam.
- Strong organizational, operations and communication skills; ability to manage multiple project details.
- Ability to travel to site locations and comfortable with working outdoors in varying conditions.
- Ability to lift and carry up to 50lb on occasion.
- Occasional overnight travel may be required.

In addition to career growth potential, we offer an excellent salary and full benefits with a casual working environment. Current benefits include:

- Paid Holidays & PTO
- Flexible hours
- Medical, Dental and Vision Insurance
- Life, Short-term and Long-term Disability Insurance
- 401(k) Profit Sharing Plan
- Section 125 Flex Plan
